

ATMASTCO (P) LTD.

(COMPANY ISO 9001:2000)

Date:-2-Apr-11

TO WHOM SO EVER IT MAY CONCERN

This is to certify that we are using **WELMET FLUX 81 L** for fabrication of power plant structures like columns, beams, girders, corner Joints etc. under M/s.BHEL.

The plate thickness range is 10 mm to 63mm. for BHEL Job

The company have a valid BHEL certificate for wire/flux combination namely Welmet flux 81 L classification SFA 5.17 F48PZ EL8.

These products are used at our both units at 157-158, L.I.A.,Bhilai & Birebhat respectively.

The performance of the product with respect to bead finish, slag removal and mechanical properties is good and services are satisfactory.

We have no hesitation in recommending these products for similar job application.
