TO WHOM IT MAY CONCERN

This is to certify that we are using Welmet Submerged arc welding fluxes for last 5 years at various sites for manufacturer of water line pipes. The fluxes are Welmet flux 81L for spiral welded pipe manufacturer at Spiral Mill Plant Goudavelly Village. For conventional welded pipes, we are using Welmet flux 80 at various sites like.

1. Hasanparthy
2. Kadapa
3. Warangal
4. Garepalli
5. Rajeev Sagar
6. Aswaraopet
7. Bhupalpalli Mandal

The performance of these Welmet Fluxes is satisfactory and meets the Mechanical & Chemical properties of weld metal as per our technical requirements.

We also wish to place on record that the services provided by them in respect of timely deliveries are also satisfactory.

Very truly yours,

For Megha Engineering & Infrastructures Limited,

N V Rao
